

Emergency Cell Phone Power

PowerPort™ SOLAR Portable Charger & Battery

Model PPUS20

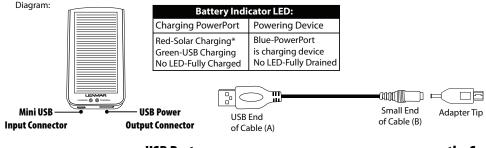

PLEASE READ THIS INFORMATION THOROUGHLY BEFORE USING THIS PRODUCT. IT CONTAINS IMPORTANT OPERATING INSTRUCTIONS FOR YOUR POWERPORT UNIT.

Owner's Manual

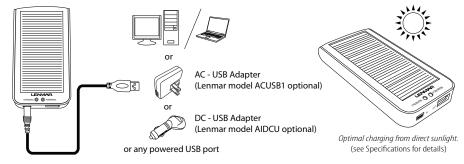

Thank you for purchasing the PowerPort Solar Portable Charger and Battery. Take the compact, lightweight PowerPort with you wherever you go and have a handy charger or rescue battery that works anywhere! Charge the PowerPort from the Sun or from USB. PowerPort Solar charges your PDA, cell phone, MP3 player, game system, or any device that can be charged via a USB cable connection.

The following items are included:

- PowerPort Solar Charger/Battery
- USB charge cable
- Adapter tips for various mobile devices (see packaging for details)

Charging Your PowerPort from USB Port — OR — Charging Your PowerPort from the Sun

- Attach the Mini USB adapter tip to the small end of the cable (B). Plug tip in to the Mini USB connector on the top of the PowerPort.
- 2. Plug the USB end of the cable (A) into any powered USB port.
- 3. While charging from USB, the Solar LED Battery Status Indicator will light up GREEN.
- 4. When the charge has been completed the Charging LED will turn OFF.
- 5. Once the charge indicator shows the charge has completed, disconnect the battery from the USB power source. Your PowerPort is ready to go.

Note: When charging your PowerPort unit from a computer, the computer must be powered on.

Charging Your Device Using Your PowerPort

- 1. Plug the USB end of the cable (A) into the USB power output connector into the PowerPort (see diagram).
- Choose the appropriate adapter tip for your device and attach it to the small end of the cable (B).
- 3. Connect the tip to your device.
- 4. Your device should indicate that it is receiving power. PowerPort's charging light will be BLUE while providing power (charging) to a device.
- 5. If you are using the PowerPort to recharge your device, be sure to disconnect as soon as possible after your device is recharged to conserve the power in the PowerPort, and to avoid overcharging your device's battery.

Specifications

Compatibility: Any USB powered device

Charging Specifications

Charge Time: • Full Charge from AC or Computer USB port 6-8 hours

- 1 hour Solar charge will provide enough power for a 5-10 minute phone calls from cell phone device
- 3 hour Solar charge will provide enough power for a 15-25 minute phone calls from cell phone device

May be charged up to 500 times Solar Panel Output : 120mA max. Solar Panel Type : Polycrystaline Silicon

Charge Current (Max.):.5A

Output: 5.5VDC, 400-800mA max.

Battery Spec. / Chemistry: 3.7V 2100mAh, Lithium-lon

Charge Termination: Automatic

Safety Mechanisms: Max V, Min V, Short Circuit, Current limited

Connections: 1 - Power Input, 1 - Power Output

Power Supply: Any Standard USB / USB Power port, Sunlight

Operating Temperature: -20 to 60°C Dimensions: 4.50 x 2.25 x 0.50 in.
